## Requesting a Global Combat Support System-Joint Account

### Login to Global Combat Support System-Joint Home Page Disclaimer

Before reaching the login screen, the user is presented with a disclaimer screen that explains the conditions the user needs to be aware of and agree to before proceeding.

**UNCLASSIFIED**

**GCSS-J**  
Global Combat Support System - Joint

**Disclaimer**

You are accessing a U.S. Government (USG) Information System (IS) that is provided for USG-authorized use only.

By using this IS (which includes any device attached to this IS), you consent to the following conditions:

- The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.
- At any time, the USG may inspect and seize data stored on this IS.
- Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.
- This IS includes security measures (e.g., authentication and access controls) to protect USG interests--not for your personal benefit or privacy.
- Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Such communications and work product are private and confidential. See User Agreement for details.

If users have a valid CAC Card for NIPRNET/SIPR Hard Token certificate for SIPRNET, they will be taken directly to the GCSS-J home page when the **“I Agree”** button is clicked. However, if users do not have a valid PKI certificate, they will be redirected to the Login Screen where they will need to click **“Request an Account.”** Once on the login screen, users can request an account.
