Defense Enterprise Office Solution

Globally Available, Device Agnostic. Flexible Adoption. Secure and Mission Effective.

DEOS is the DoD-wide single enterprise commercial cloud solution for common communication, collaboration and productivity.

DEOS is a commercially provided cloud-based enterprise service that will seamlessly integrate email, content management, web conferencing, native audio, native video, chat and office productivity tools.

DEOS will be deployed on the Sensitive but Unclassified Internet Protocol Data Network, also known as NIPRNet, the Secret IP Data Network, also known as SIPRNet, and Denied, Disconnected, Intermittent, and Limited Bandwidth environments within and outside the United States, and its territories. DEOS supports growth on-demand. DEOS will have tiered user consumption (i.e. browser vs client based) and flexible pricing structures.

DEOS Capabilities

MESSAGING

- Email
- Calendar
- Contacts

CONTENT MANAGEMENT

- Web Portal
- File Sharing, Storage and Archive
- Index, Search & Filter
- Workflows & Orchestration

PRODUCTIVITY SUITE
