

# DOD MOBILITY UNCLASSIFIED CAPABILITY (DMUC)

DISA provides enterprise mobility management infrastructure, security, and continuous service improvements to ensure you remain connected while on the move with the latest unclassified, operational mobile capabilities.

Visit the DoD Mobility Service Portal: [https://disa.deps.mil/ext/cop/dod\\_mobility](https://disa.deps.mil/ext/cop/dod_mobility)

DMUC manages your government-furnished devices on Wi-Fi or commercial cellular networks.

## DMUC included features:

- DoD365-J and Army 365
- DoD Enterprise Email (DEE)
- Mobile apps store (1300+ apps)
- Non-secure Internet Protocol Router Network (NIPRNet) access
- Derived Credentials (Purebred)
- Digitally signed and encrypted email
- Newly improved DoD App Vetting Environment (D.A.V.E.) 2.0
- Compatible with iOS, iPadOS, and Android devices
- Mobile App Management (MAM)
- Mobile Device Management (MDM)
- Apple Business Manager (ABM)
- Android Enterprise (AE)
- Knox Mobile Enrollment (KME)
- Mobile Endpoint Protection (MEP)
- PDF signature capability
- Four 9s availability
- Tiered permissions
- 24/7 Tier II & 8x5 Tier III

**Cost:** DISA provides the environment and infrastructure; the Mission Partner pays only \$3.97 per device/per month. Shed the infrastructure, licensing, and other related costs.

**Control:** The Mission Partner retains all control over their users' devices as the Tier I; PIN issuing, wiping, retiring devices, and messaging users.

**Cyber Ops:** DISA maintains and sustains the Accreditation; no actions required by the Mission Partner; DISA's Team of Cyber experts are on the job.

**Complexity:** Let DISA handle all the challenges of integrating and supporting multiple commercial products, S/MIME, integration with IL5 MS365 tenants, and app vetting and hosting — to name a few.
