DISA, Mission Partners and Industry Joint Efforts Support the Warfighter

"DOD requires robust end point solutions that are commercially based, threat informed, and capable of :
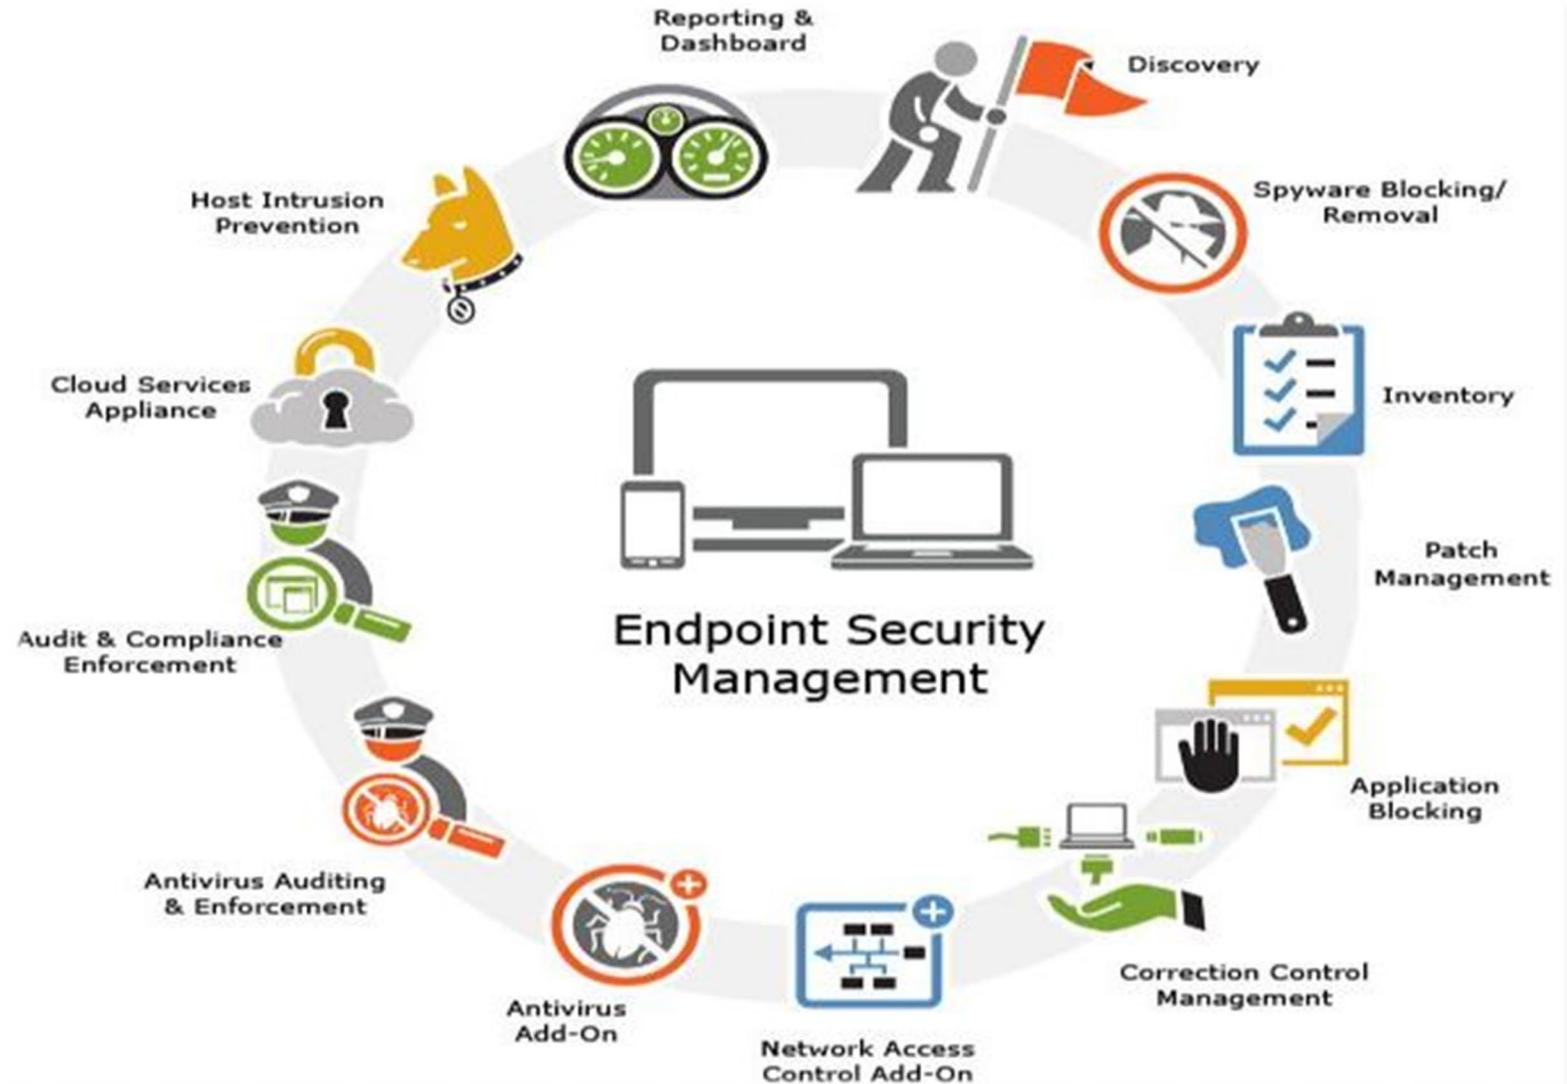

- *identifying what is on the network;*

- *ensuring the endpoints are secure and in compliance with enterprise standards;*

- *supporting real-time monitoring and near real-time response and remediation to threats;*

- *providing situational awareness to our network defenders; and,*

- *protecting the integrity and confidentiality of the data and information assets, enabling mission owner confidence in the information they are using."*

DOD Chief Information Officer (CIO), Dana Deasy, 7 February 2019

Endpoint Security Solutions (ID3)

By placing more emphasis on Endpoint Security, protections are closer to the sensitive data. The Endpoint Modernization Solutions program is evolving Endpoint Security to address the emerging threats.

Acquisition Opportunities FY20 & Beyond

Acquisition Opportunities

Project Title & Description	Program Office	RFP / Projected Award
Endpoint Security Integration Integration of 3rd party Endpoint Security Tools.	**DISA DBC ID3**	Single Award Acquisition Strategy TBD RFP to be released 2Q FY20 Award in 4Q FY20
Endpoint Detection & Response New endpoint security capability allowing cyber defenders to quickly detect and investigate security incidents, automatically detect malicious system activities and behaviors, and support mitigation/remediation actions.	**DISA DBC ID3**	Single Award Acquisition Strategy TBD RFP to be released 2Q FY20 Award in 3Q FY20

Acquisition Opportunities

Project Title & Description	Program Office	RFP / Projected Award
Application Containment New endpoint security capability providing the ability to restrict execution of high-risk applications and computer processing activities to an isolated environment on the system.	**DISA DBC ID3**	Single Award Acquisition Strategy TBD RFQ to be released 2Q FY20 Award in 3Q FY20
Comply to Connect (C2C) A framework of tools and technologies organized to restrict unauthorized device access; reduce known vulnerabilities; take action to detect, identify, characterize, and report and deter anomalous behaviors associated with malware or with the unauthorized activities of users; and, to maintain the secure configuration of the network and its information resources.	**DISA DBC ID3**	Multiple Award ESI BPA RFQs to be released 2Q FY20 Awards in 3Q/4Q FY20

Acquisition Opportunities

Project Title & Description	Program Office	RFP / Projected Award
Secure Configuration Management (SCM) Development and Operations Continued support, sustainment and enhancement of existing SCM capabilities, and rapid implementation of new features, updates and improvements, including redesign of some SCM capabilities.	**DISA DBC ID3**	Single Award Acquisition Strategy TBD RFP to be released 3Q FY21 Award in 1Q FY22
Enterprise Mission Assurance Support Service (eMASS) To provide the DoD user community with a tool that automates Risk Management Framework process workflow activities and enables enterprise visibility, reporting, and inheritance functions.	**DISA DBC ID3**	Single Award Acquisition Strategy TBD RFP to be released 4Q FY21 Award in 1Q FY22
